A LETTER FROM YOUR INTELLILINK MARKETING TEAM

Buick's brand mission is to be the most friendly, down-to-earth luxury brand in the world. We're pleased to deliver on this mission with the next evolution of IntelliLink, our premium and refined infotainment system

Overall new services for select IntelliLink radios include:

- Siri Eyes Free to enable iPhone users to access more of their phone's features through the radio (new for LaCrosse and Regal)
- Text Message Alerts, a hands-free method of receiving text messages in your vehicle (new for LaCrosse and Regal)

INTRODUCING ONSTAR 4G LTE WI-FI SERVICE

To complement IntelliLink's premium infotainment system, we're pleased to offer OnStar 4G LTE Wi-Fi service that makes select Buick vehicles (new for Verano, Encore, LaCrosse and Regal) a rolling Wi-Fi hotspot. The hotspot is powered by your vehicle, so when your vehicle is running, your hotspot is active.

- The 4G connection is stronger because of a more powerful antenna. And up to seven Wi-Fi devices can be connected at once, so when you're chauffeuring your family or driving carpool, everyone can use Wi-Fi.

Please use this updated Details Book to learn about the new and updated IntelliLink features and the new OnStar 4G LTE Wi-Fi service on select Model Year 2015 Buicks.

Your IntelliLink Marketing Team

¹See onstar.com for a detailed instruction guide, vehicle availability, details, and system limitations. Services and apps vary by make, model, year, carrier, availability and conditions. 4G LTE service is available in select markets. 4G LTE performance is based on industry averages and vehicle systems design. Some services require a data plan.

KEY MESSAGES

ONSTAR 4G LTE WI-FI SERVICE

- **OnStar 4G LTE Wi-Fi makes vehicle a rolling Wi-Fi hotspot that connects up to seven devices**

INTELLILINK

- **Pair up to 10 Bluetooth devices**
- **Simple to use**
 - An **intuitive touch screen** with simple **icons that mimic smartphones**
 - **Steering wheel controls** keep hands on the wheel and eyes on the road
 - Initiate voice recognition
 - Customize the DIC
 - Scroll through favorites
 - Adjust volume
 - **Natural language voice recognition** – normal phrases control the system
- **Personalize** system to your preferences
 - **Save up to 60 favorites**, including radio stations, albums, songs, artists, genres, destinations and contacts
 - Choose information to see in **DIC display**
 - Move most used **icons into app tray** for **access from any page**
- Top infotainment features included:
 - **Pandora app** built in
 - **AM, FM and SiriusXM*** Radio
 - iTunes tagging for SiriusXM Radio*
 - MyMedia** aggregates music on **multiple USB devices into one library**
- **Text Message Alerts**
- **Siri Eyes Free*****

* Requires a subscription after initial complimentary period.

** Only available on Regal.

*** Requires available IntelliLink and compatible iPhone 4S or 5 running iOS 6.

HIGHLIGHTS

ONSTAR 4G LTE WI-FI MAKES VEHICLE WI-FI HOTSPOT

Your vehicle becomes a rolling mobile hub with great signal quality and bandwidth for up to seven devices. OnStar with 4G LTE service allows everyone to enjoy his or her own content. A 3-month/3GB, whichever comes first, 4G LTE trial is included when the OnStar complimentary service is activated (OnStar's Basic Plan is included for 5 years). Click on the "Fast Facts" icon below for more information.

Press the OnStar Voice Command Button on the mirror or overhead console or, if available, select the "OnStar" icon on the radio home screen. Wait for the prompt and the beep and say, "Wi-Fi Settings." The screen will display the name and password for your Wi-Fi hotspot. Go to Settings on the device you want to connect and find the name of your vehicle's 4G LTE Wi-Fi connection. Select the hotspot and input the password. Then, connect. Press the blue OnStar button and speak to an Advisor to change your 4G LTE Wi-Fi name and/or password, or manage your settings in your RemoteLink mobile app.

Video: OnStar 4G LTE Wi-Fi

PHONE, MEDIA & STREAMING AUDIO ALL CONNECT THROUGH INTELLILINK

Take Control of Bluetooth Devices with IntelliLink

Pair up to 10 Bluetooth devices and with certain phones, see a picture of incoming caller. iPhones have full functionality with IntelliLink when connected via USB cable. When paired with IntelliLink via Bluetooth, you can make and receive calls on your iPhone, see your phonebook and control your iPhone through the radio. You can also stream audio and play Pandora², but to control media or streaming audio through IntelliLink, you must tether any Apple device.

Radio and Media Functions

IntelliLink gives you a host of features that make playing music easier:

- MyMedia³ aggregates the music on multiple USB-connected devices
- Pandora² has been integrated into the system for one-click play
- iTunes tagging is offered for SiriusXM Radio³
- You can Time Shift—record and play back—25 minutes of live radio

TEXT MESSAGE ALERTS

If your vehicle with IntelliLink is paired with a Bluetooth device that supports Text Message Alerts, the system:

- **Can display incoming text messages**
- **Can play incoming text messages over the audio system**
- **Can respond to incoming text messages with preset messages**
- **Requires a compatible smartphone** with Bluetooth profile (M.A.P.) **and applicable text messaging features.** For more information about varying capabilities, go to gmtotalconnect.com. For example, iPhones require unique setup requirements and offer limited Text Message Alert capabilities

SIRI EYES FREE FOR iPhone USERS

Siri Eyes Free gives **compatible iPhone users hands-free access to some of their phone's features**, like the **calendar** and **text messaging**. Siri Eyes Free allows users to direct Siri to perform a number of tasks while they safely keep their eyes on the road and their hands on the wheel. To further minimize distraction, Siri takes hands-free functionality even further with an **Eyes Free mode** that enables users to **interact with their iPhone using nothing more than their voice**.

¹ Requires optional IntelliLink with Navigation.

² Requires Pandora account and connected Bluetooth device with Pandora app. Data rates apply.

³ Only available on Regal.

INTELLILINK RADIO HIGHLIGHTS

NATURAL LANGUAGE VOICE RECOGNITION OR FAMILIAR GESTURES PUT YOU IN CONTROL

Gestures

IntelliLink's touch screen is easy to navigate, because you can use gestures to control radio features.

Natural Language Voice Recognition

Natural language voice recognition allows you to **use everyday language to tell IntelliLink what you want to do**. You don't have to use specific keywords.

Natural voice **commands work for connected Bluetooth devices, contacts** listed in your connected phone's phone book, connected USB devices and the radio. For example:

- "I want to call John Westin at work"
- "Take me home"¹
- "I want to listen to the blues"
- "Play the White Album"
- "Play 'Born in the USA'"

¹ Requires optional IntelliLink with Navigation.

MAKE INTELLILINK YOUR OWN WITH MORE WAYS TO CUSTOMIZE

Choose the information you want to see in the **Driver Information Center display** and change what you see at any time using the **5-way controller on the steering wheel**.

Drag three to five of your most frequently used home screen icons into the app tray for easy access from any screen.

Favorite stations? Contacts? Destinations?¹ Songs? **Save up to 60 as favorites.**

INTERACTING WITH INTELLILINK

Video: Customize the Home Page and App Tray

CUSTOMIZE THE HOME PAGE

Touching and holding an icon on the Home Page puts the page into edit mode, signified by the brackets around the icons. Then, you can:

- Drag the icons to a new position on the page
- Drag the icons to the right edge of the page and hold until they move to the next page
- Drag items into the app tray
- Drag items out of the app tray

To exit edit mode, press the **"Home"** button.

USE GESTURES ON THE TOUCH SCREEN

To make it easier and faster to navigate through IntelliLink's screens, IntelliLink recognizes many gestures that will be familiar to users.

Gestures

- **Press** to select an icon or option, activate an application or change the location within a map¹
- **Press and hold** to start another gesture, move or delete an application
- **Drag** to move an application on the Home Page or to pan a map¹. To drag an item, you must first press and hold it, then you can drag it up, down, right or left to the new location
- **Swipe or fling** through a list to reveal more favorites, to pan a map quickly¹ or to change page views. To fling or swipe through a list, for example, place your finger on the screen then move it up or down rapidly
- To enhance touch screen operation:
 - **Start on Home Page**
 - **Press "Settings"**
 - **Press "Display"**
 - **Press "Calibrate"**
 - Then follow the instructions on the screen

¹ Requires optional IntelliLink with Navigation.

INTERACTING WITH INTELLILINK

Video: Natural language voice recognition

NATURAL LANGUAGE VOICE RECOGNITION

- Press the **"Push-to-Talk"** button on steering wheel one time to **initiate voice recognition** or press the **"Voice"** button on the touch screen
 - Listen for system response and beep
 - Then speak
- Pressing the **"Voice"** button on the touch screen brings up some **suggested voice commands**, as does pressing the **"Push-to-Talk,"** waiting for the beep and saying, **"Help"**
- Gracenote enables **natural voice commands** for music
 - You may ask IntelliLink to play music from USB-connected media by song title, album title, artist name or music genre
- Natural language voice recognition allows you to speak normally to the system, without memorizing commands
- **Voice commands cannot be used with Pandora**
- Voice commands are only available in English

For example:

- "I want to call John Westin at work"
- "Take me home¹"
- "I want to listen to the blues"
- "Play the White Album"
- "Play 'Born in the USA'"

¹ Requires optional IntelliLink with Navigation.

RADIO AND USB MEDIA

SIRI EYES FREE FOR IPHONE USERS

Siri Eyes Free gives compatible iPhone users hands-free access to some of their phone's features, like the calendar and text messaging. Using nothing more than their voice. And it eliminates one more potential distraction by keeping the device's screen from lighting up.

Video: Siri Eyes Free

How to Use Siri Eyes Free

Press and hold the PTT button long enough until Siri speaks; pressing and holding the PTT button for too short a period of time will engage the onboard voice recognition system and bypass Siri. Siri can:

- Make voice-activated, hands-free calls to contacts on their iPhone
- Play songs in the iTunes library and even switch music sources
- Listen to, compose and send an iMessage or text message
- Access calendar and add appointments
- Answer simple questions such as game scores or the dates of national holidays; Siri will not provide answers to complex questions that require displaying a web page

RADIO AND USB MEDIA

TEXT MESSAGE ALERTS

If your vehicle with IntelliLink is paired with a Bluetooth device that supports Text Message Alerts, the system:

- Can display incoming text messages
- Can play incoming text messages over the audio system
- Can respond to incoming text messages with preset messages
- Requires a compatible smartphone with Bluetooth profile (M.A.P.) and applicable text messaging features. For more information about varying capabilities, go to gmttotalconnect.com. For example, iPhones require unique setup requirements and offer limited Text Message Alert capabilities

HOW TO USE TEXT MESSAGING

- Press **"Message"** button on Home Page
- When messages are retrieved, **"Text Message"** inbox displays
- Select message for viewing (**only available when vehicle is not moving**)
- Select **"Reply"** to reply and select desired message from display of preset messages, then select **"Send"** (this function is not available for iPhones)
- **Incoming text messages**
 - Pop-up screen displays
 - Select **"Listen," "View," "Dismiss"** or **"Call"**
 - Turn off display alerts from the **"Settings"** button

Video: Text Message Alerts

SETTING UP TEXT MESSAGING DURING PHONE PAIRING

- **Android and BlackBerry** give you a pop-up right after you pair, asking whether you want to allow access to your messages
- **For iPhone** you have to go into Settings, then Bluetooth, select your vehicle and turn on notifications
- **Notes for iPhone**
 - Text messaging functionality with compatible iPhones is limited to Apple restrictions on what the radio can access, e.g., text messages received prior to entering the vehicle will not be displayed, and you cannot reply to a text message
 - **"Show Notifications"** must be enabled on the phone to allow the radio to access messaging; this can be enabled by the following steps (after pairing and connecting to the radio):
 - On the phone, select Settings, then Bluetooth, then properties (either device-friendly name such as **"Buick Verano"** or **"Radio"**), then turn on **"Show Notifications"**
 - Restart vehicle for connection to take hold
 - Once set, it is retained for future connections
- **Visit gmttotalconnect.com for vehicle and smartphone compatibility**

RADIO AND USB MEDIA

TIME SHIFT LIVE RADIO

- To initiate, press the **"Pause"** button at the bottom of the screen—this **pauses live radio** and **indicates the time of day that you started recording the station**
- Press **"Play"** button to **listen to the recorded station**
- Press **"Rewind"** or **"Forward"** buttons to **reverse or advance playback** positions of recorded station
- Press and HOLD **"Forward"** button to **fast forward to the end** of the recording and return to the live broadcast of the station
- If you change radio bands or stations, the **"buffer" resets** and begins recording the new station automatically

Video: Play USB-Connected Media

USE MYMEDIA*

On Regal, MyMedia **aggregates the audio files from multiple USB devices** into one library for access to all the media without changing from device to device. To use MyMedia:

- Press the **"Media"** button on the faceplate until **"MyMedia"** appears where you would see album art
- Press the **"MyMedia"** icon on the touch screen to see the aggregated menu

When multiple USB devices are connected at the same time, IntelliLink will not display album art.

* Only available on Regal.

Press the **"Turn List"** information area to display all the turns in the guided route.

To **suspend current route guidance**, press the **"Menu"** button and the **"Cancel Route"** option.

TURN ON SEVERE WEATHER ALERT

This feature, which will send severe weather alerts to IntelliLink (within a 45-mile radius around the vehicle), is set to "off" from the factory. To turn it on:

- Select **"Weather"** on the Home Page
- Select **"Menu,"** then turn Advisories on as shown

HOW TO USE NAVIGATION

USE NATURAL LANGUAGE VOICE RECOGNITION FOR NAVIGATION

Natural language voice recognition allows you to **tell IntelliLink where you want to go** in everyday language.

To use voice recognition from the steering wheel controls, press the "Push-to-Talk" button, listen for the system response and the beep, then speak one of the commands—**"Destination Address,"** or **"Destination Places of Interest,"** or **"Destination Contact"**—to begin a dialogue with the system.

Then, speak to the system using natural language:

- Address: "I want to go to 300 Renaissance Center"
- POI: "Find a gas station"
- Contact: "Take me to Peter Mitchell's house"

ADDITIONAL FEATURES WITH A SUBSCRIPTION TO SIRIUSXM TRAVEL LINK

- **Weather** icon: With a subscription to **SiriusXM Travel Link**, access to daily and extended forecasts

- **SiriusXM Travel Link** also gives you access to fuel prices and movie listings integrated into Places of Interest categories/destination method

ONSTAR TURN-BY-TURN NAVIGATION

An OnStar subscriber has the ability to connect to the OnStar system and ask an OnStar Advisor to download a destination into the system. OnStar will send address information and location coordinates of the destination into IntelliLink's navigation system.

FEATURES HELP KEEP CUSTOMERS CONNECTED

ONSTAR 4G LTE WI-FI MAKES VEHICLE WI-FI HOTSPOT

Your vehicle becomes a rolling mobile hub with great signal quality and bandwidth for up to seven devices. OnStar with 4G LTE service allows everyone to enjoy his or her own content. A 3-month/3GB, whichever comes first, 4G LTE trial is included when the OnStar complimentary service is activated (OnStar's Basic Plan is included for 5 years). Click on the "Fast Facts" icon below for more information.

Press the OnStar Voice Command Button on the mirror or overhead console or, if available, select the "OnStar" icon on the radio home screen. Wait for the prompt and the beep and say, "Wi-Fi Settings." The screen will display the name and password for your Wi-Fi hotspot. Go to Settings on the device you want to connect and find the name of your vehicle's 4G LTE Wi-Fi connection. Select the hotspot and input the password. Then, connect. Press the blue OnStar button and speak to an Advisor to change your 4G LTE Wi-Fi name and/or password, or manage your settings in your RemoteLink mobile app.

Video: OnStar 4G LTE Wi-Fi

Verano and Encore with IntelliLink have two new features that **raise the radio's connectivity** to a new level:

- Text Message Alerts – **play a text message** over the audio system and respond with a preset message
- **Siri Eyes Free** – gives compatible iPhone users **hands-free access to some of their phone's features, like the calendar and text messaging**

These new features are intended to prioritize safety for driver and passengers. Driver focus should always remain on driving, and GM strongly recommends that drivers never input text using a handheld device while driving.

INTELLILINK OFFERS TEXT MESSAGE ALERTS

If your Verano or Encore with IntelliLink is paired with a Bluetooth device that supports Text Message Alerts, the system:

- **Can display incoming text messages**
- **Can play incoming text messages over the audio system**
- **Can respond to incoming text messages with preset messages**
- **Requires a compatible smartphone** with Bluetooth profile (M.A.P.) **and applicable text messaging features**. For more information about varying capabilities, go to gmtotalconnect.com. For example, iPhones require unique setup requirements and offer limited Text Message Alert capabilities

HOW TO USE TEXT MESSAGING

- Press **"Message"** button on Home Page
- When messages are retrieved, **"Text Message" inbox displays**
- Select message for viewing (**only available when vehicle is not moving**)
- Select **"Reply"** to reply and select desired message from display of preset messages, then select **"Send"** (this function is not available for iPhones)
- **Incoming text messages**
 - Pop-up screen displays
 - Select **"Listen," "View," "Dismiss" or "Call"**
 - Turn off display alerts from the **"Settings"** button

SETTING UP TEXT MESSAGING DURING PHONE PAIRING

- **Android and BlackBerry** give you a pop-up right after you pair, asking whether you want to allow access to your messages

- **For iPhone** you have to go into Settings, then Bluetooth, select your vehicle and turn on notifications

- **Notes for iPhone**
 - Text messaging functionality with compatible iPhones is limited to Apple restrictions on what the radio can access, e.g., text messages received prior to entering the vehicle will not be displayed, and you cannot reply to a text message
 - **"Show Notifications"** must be enabled on the phone to allow the radio to access messaging; this can be enabled by the following steps (after pairing and connecting to the radio):
 - On the phone, select Settings, then Bluetooth, then properties (either device-friendly name such as **"Buick Verano"** or **"Radio"**), then turn on **"Show Notifications"**
 - Restart vehicle for connection to take hold
 - Once set, it is retained for future connections
- Visit gmttotalconnect.com for vehicle and smartphone compatibility

¹See onstar.com for a detailed instruction guide, vehicle availability, details, and system limitations. Services and apps vary by make, model, year, carrier, availability, and conditions. 4G LTE service is available in select markets. 4G LTE performance is based on industry averages and vehicle systems design. Some services require a data plan.

SIRI EYES FREE FOR iPhone USERS

Siri Eyes Free gives **compatible iPhone users hands-free access to some of their phone's features**, like the **calendar** and **text messaging**.

Siri Eyes Free allows users to direct Siri to perform a number of tasks while they safely keep their eyes on the road and their hands on the wheel. To further minimize distraction, Siri takes hands-free functionality even further with an **Eyes Free mode** that enables users to **interact with their iPhone using nothing more than their voice**.

HOW TO USE SIRI EYES FREE

Owners simply **connect their iPhone** with the IntelliLink radio via Bluetooth, pair with the system, and use the Push-to-Talk (PTT) button on the steering wheel controls to begin and end sessions with Siri in Eyes Free mode. Press and hold the PTT button long enough until Siri speaks; pressing and holding the PTT button for too short a period of time will engage the onboard voice recognition system and bypass Siri. Siri can:

- Make voice-activated, **hands-free calls to contacts on their iPhone**
- **Play songs in the iTunes library** and even switch music sources automatically from AM/FM/XM radio to iPod mode
- **Listen to, compose and send an iMessage or text message** to a phone number or anyone in saved Contacts
- **Access calendar and add appointments**
- **Answer simple questions** such as game scores or the dates of national holidays; while in Eyes Free mode, Siri will not provide answers to complex questions that require displaying a web page

INTELLILINK FEATURES ADD VALUE FOR CUSTOMERS

Enclave customers will enjoy their IntelliLink radios even more with the ability to receive text messages and **enhance the radio's personalization** with SiriusXM TuneSelect.

INTELLILINK OFFERS TEXT MESSAGE ALERTS

If your Enclave with IntelliLink is paired with a Bluetooth device that supports Text Message Alerts, the system:

- Can display incoming text messages
- Can play incoming text messages over the audio system
- Can respond to incoming text messages with preset messages
- Requires a compatible smartphone with Bluetooth profile (M.A.P.) and applicable text messaging features. For more information about varying capabilities, go to gmtotalconnect.com. For example, iPhones require unique setup requirements and offer limited Text Message Alert capabilities

HOW TO USE TEXT MESSAGING

- Press **"Message"** button on Home Page
- When messages are retrieved, **"Text Message" inbox displays**
- **Select message for viewing** (only available when vehicle is not moving)
- Select **"Reply"** to reply and select desired message from display of preset messages, then select **"Send"** (this function is not available for iPhones)
- **Incoming text messages**
 - Pop-up screen displays
 - Select **"Listen," "Play" or "View"**
 - Turn off display alerts from the **"Settings"** button

SETTING UP TEXT MESSAGING DURING PHONE PAIRING

- **Android and BlackBerry** give you a pop-up right after you pair, asking whether you want to allow access to your messages

- **iPhone** you have to go into Settings, then Bluetooth, select your vehicle and turn on notifications

- **Notes for iPhone**
 - Text messaging functionality with compatible iPhones is limited to Apple restrictions on what the radio can access, e.g., text messages received prior to entering the vehicle will not be displayed, and you cannot reply to a text message
 - “Show Notifications” must be enabled on the phone to allow the radio to access messaging; this can be enabled by the following steps (after pairing and connecting to the radio):
 - On the phone, select Settings, then Bluetooth, then properties (either device-friendly name such as “Buick Enclave” or “Radio”), then turn on “Show Notifications”
 - Restart vehicle for connection to take hold
 - Once set, it is retained for future connections
- Visit gmttotalconnect.com for vehicle and smartphone compatibility

HEAR YOUR FAVORITE ARTISTS OR SONGS MORE OFTEN WITH TUNeselect

IntelliLink Radios with Navigation equipped with SiriusXM can be set to **alert you when a selected artist or song is playing on another XM Station.**

To use:

- Select “**Menu**” when the specific song or artist is playing. Select TuneSelect and the following will display:
 - Artist: Press to set an audio alert when the current artist is playing on a SiriusXM channel
 - Song: Press to set an audio alert when the current song is playing on a SiriusXM channel
- TuneSelect Manager: Press “Disable/Enable All Alerts” to enable or disable all alerts; a check mark next to the alert means it is turned on. Press an alert to turn it off; press “Delete” to delete an alert
- Audible Alert: This feature will give an audio alert when certain artists or songs are available on a specific station. Press to turn on or off
